Screenshots of output :-

```
function App() {  
  return (  
    <BrowserRouter>  
      <Routes>  
        <Route path="/" element={<Home />} />  
        <Route path="/login" element={<Login />} />  
        <Route  
          path="/dashboard"  
          element={  
            <ProtectedRoute>  
              <Dashboard />  
            </ProtectedRoute>  
          }  
        />  
        <Route path="*" element={<div style={{ padding: 20 }}><h2>404 - Not Found</h2></div>} />  
      </Routes>  
    </BrowserRouter>  
  );  
}
```
